Inspiring Great Spaces®

Maximizing value with the right floor for every space

Historic changes in the healthcare industry are having a profound impact on facility design and management. Demographic shifts are increasing the need for care, while uncertainty surrounding reimbursement protocols has put the focus on cost efficiency and the need for lean building and remodeling practices. Smart flooring choices not only have the potential to maximize efficiencies through faster installation and easy maintenance; they can also improve patient satisfaction through noise reduction, a clean appearance, and colors and patterns that support a healing environment.

Flooring is a high-impact surface and an investment you trust to maintain its original beauty through years of use, with minimal effort spent on maintenance. Which is why so many professionals choose, specify and trust Armstrong® products. Our long history of providing products that do what we say they will do, and standing behind that promise, is the foundation of the Armstrong brand.

Armstrong offers a variety of choices designed to create an environment that promotes the health and well-being of patients and staff alike. The Armstrong portfolio is packed with long lasting, low maintenance products suited to every space, offering:

- Colors and designs that coordinate across categories and include choices to fit any aesthetic, from clean and modern to warm and homey
- Options that can be heat welded and flash coved for aseptic environments
- Low-maintenance finishes that protect against scuffs and scratches from heavy foot traffic and rolling loads
- Resistance to indentations from static loads
- Innovations like Flip® spray adhesive and the I-Set® Installation System to enable quick and easy installation and replacement
- Sustainable choices, including linoleum and the industry's only bio-flooring tile made with rapidly renewable resources
- Low VOC options that are FloorScore® certified and meet requirements of CDPH Standard Method V1.1-2010, compliant with LEED® EQ Credit 4

The right choice for your space depends on your budget considerations as well as performance expectations. The following Armstrong flooring collections are best suited to hospitals and ambulatory care facilities.

Armstrong floors provide the looks and the performance you depend on to create inspiring spaces in your healthcare facility. Discuss your project with your Armstrong representative and use this convenient reference to make notes on the product lines and colors that inspire you.

Notes:

Lobbies & Waiting Areas

Evidence-based design advocates the use of comforting, homelike products to reduce stress. This calming influence is especially important in the spaces patients first see, and the areas in which family members wait during procedures. Armstrong® options accomplish this without sacrificing the durability such busy spaces also require.

Lobbies & Waiting Areas need

- Warm, welcoming designs
- Variety of colors, patterns to facilitate wayfinding
- Resistance to heavy foot traffic
- Long life
- Easy maintenance

- Luxury Vinyl Tile
- Bio-Flooring
- Laminate
- Linoleum
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl

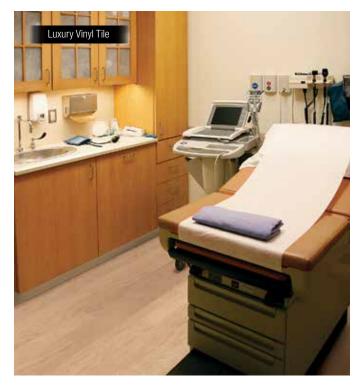

Patient & Exam Rooms

Today's patient and exam rooms require modern, up-to-date designs that are easy to keep looking clean and new. Armstrong offers low-maintenance floors in colors and patterns that coordinate across categories as well as quick installation options that make updates simple and keep the look fresh.

Patient & Exam Rooms need

- Color and design choices to match facility aesthetic
- Coordinating colors and patterns to support work-flow based design
- Quick installation options like Flip® spray adhesive and the I-Set® Installation System
- Indentation resistance
- Easy maintenance
- Long life

- Luxury Vinyl Tile
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Bio-Flooring

Notes:	 	 	

Food Service Areas

Cafeterias and food service venues are especially tough on floors. Armstrong offers inviting designs that provide the high durability, stain resistance and easy daily cleaning required by the challenging combination of food, beverages and high traffic.

Food Service Areas need

- Warm designs that don't feel institutional
- Stain resistance
- Scratch, scuff and indentation resistance
- Easy maintenance

Top flooring choices

- Luxury Vinyl Tile
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Bio-Flooring
- Safety Zone™ Slip-Retardant Tile

Corridors

In addition to standing up to constant foot traffic and rolling loads, corridor floors can help reduce the stress of patients and visitors by serving as a means of wayfinding. Armstrong offers floors with tough scratch- and scuff-resistant finishes in colors and patterns that disguise wear, coordinate seamlessly and facilitate navigation.

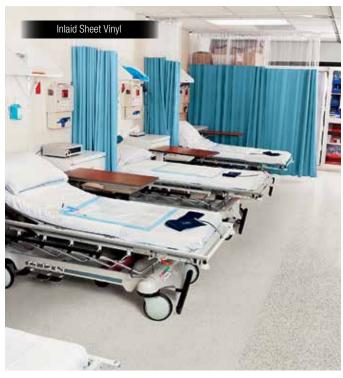

Corridors need

- Resistance to heavy foot traffic and rolling loads
- · Variety of colors, patterns to facilitate wayfinding
- Scuff and scratch resistance
- Easy maintenance
- Long life

- Luxury Vinyl Tile
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Linoleum
- Bio-Flooring
- Vinyl Composition Tile

Notes:

Procedure & Operating Rooms

Cleanability is key in operating rooms as well as pre-op exam and postop recovery spaces, which require a sterile environment. Armstrong offers a collection of homogeneous sheet floors developed specifically for these demanding healthcare spaces.

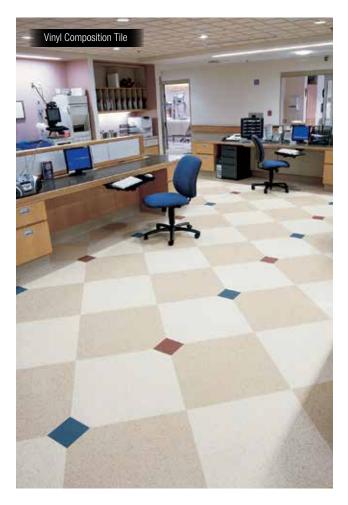

Procedure & Operating Rooms need

- Aseptic, sterile environment
- Heat welded seams with flash coving
- Resistance to stains from chemical reagents and bodily fluids
- Resistance to rolling loads
- Long life
- Easy maintenance

- Homogeneous Sheet Vinyl (for surgical areas)
- Heterogeneous Sheet Vinyl (for pre-op, procedure and recovery areas)
- Inlaid Sheet Vinyl (for pre-op, procedure and recovery areas)

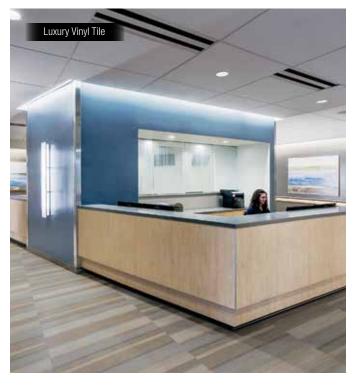

Nurses Stations & Front Desk Areas

In addition to durability, Armstrong® floors offer colors and designs that can maximize comfort and ease stress for busy nursing staff and anxious patients in these high-traffic areas that serve as a hub of activity within hospitals, clinics and outpatient facilities of all kinds.

Nurses Stations & Front Desk Areas need

- Resistance to heavy foot traffic and chair casters
- Comforting designs
- Long life
- Quick and easy maintenance

- Luxury Vinyl Tile
- Homogeneous Sheet Vinyl
- Heterogeneous Sheet Vinyl
- Inlaid Sheet Vinyl
- Bio-Flooring
- Vinyl Composition Tile
